When you run an online business, email is going to be your primary communication platform. In that case, you need to make sure that you have all your emails organized so that you can find them quickly and easily. Disorganization brings you closer to failure and in this video you will learn how to save time with a few tips and tricks. Video #3 - Email Centralization Email Centralization? By this we mean, the act of centralizing your emails into one account. If youre like me, you may have five or more websites. If you dont have a helpdesk, then each of these websites will have their own custom email. With the increase of websites, comes the increase of separate email addresses. But did you know that you can make all the emails come into one email box, and when you email out, make it look like youre emailing from that specific address? This tricks makes it convenient for you, by saving you time, without losing any professionalism. More on that in this video. Video #4 - Free Google Tools There are tons of re Free Google Tools, however which ones can really help you in terms of business productivity? Obviously we cannot cover every single tool Google offers, however you will learn which ones can truly help your business, that we have tested and found to work for us. Video #5 - Saving Time and Speeding Up Tasks Did you know that what takes you one month, could probably be done in one week? Or one week into a day? And so forth? Over the years, I have invested in tons of time saving ebooks, audio books, and even software. Guess what? Most of them were ineffective. However, in the last 3 years I have been able to do exact as mentioned previously. But how? In this video, you will learn how to save time by speeding up the completion of your tasks. Really, its not that hard. In fact once I reveal this to you, its guaranteed to save you time if you follow it correctly. Video #6 - Online Time Management Not to get confused with Video #5, this video covers online time management. There are tons of distractions online and you know exactly what I mean. Youre online trying to work, but you get distracted by Facebook or Youtube. Youve been there and done that. Its easy to tell yourself that you dont want to do it, but still do it. Thats why, in this video, you will learn how to track what you are doing online, whether it is truly productive, and get rid of the distractions for good. Video #7 - Group Collaboration Tools Group collaboration is important, when you are dealing with business partners, joint ventures, or even for communication with your Virtual Assistants. There are tons of tools out there and Ive

invested a lot money, but after years of losing money, I found a couple that have really done an amazing job, yet are free or cheap. In this video, I will reveal that information to you and how to use these tools to increase your group collaboration communications and productivity levels. Video #8 - Communication Tools Finally, you have reached the final video. In this video, you will learn about certain communication tool that make or break your communication efficiency.
