

Endothelial Dysfunction And Inflammation

[DOWNLOAD HERE](#)

Endothelial activation and dysfunction in sepsis.- Heterogeneity in responses of microvascular endothelial cells during inflammation.- Oxidative stress and endothelial dysfunction.- Post-translational regulation of eNOS activity in inflammation.- Endothelial dysfunction in pulmonary hypertension.- Endothelial dysfunction in systemic hypertension.- Sphingosine-1-phosphate as a mediator of endothelial dysfunction during inflammation.- Dissecting TNF-TNFR1/TNFR2 signaling pathways in vasculature.- AGE-RAGE signalling and endothelial dysfunction and atherosclerosis in diabetes.- Regional predisposition to atherosclerosis An interplay between local hemodynamics, endothelial cells and resident intimal dendritic cells.- Inflammation and endothelial dysfunction with aging.- Clinical approaches to assess endothelial function in vivo.- Therapeutic approaches towards targeting endothelial dysfunction. EAN/ISBN : 9783034601689 Publisher(s): Springer, Berlin, Springer, Basel Discussed keywords: Sepsis Format: ePub/PDF Author(s): Dauphinee, Shauna - Karsan, Aly
