Heres How You Can Make This Planet Worth Living For Your Grand Children! A comprehensive guide on Green Living! Date: Sunday, January 08, 2012 From: Your Name Here Dear Reader, Sustainable living has gained quite a lot of momentum in the past one decade or so. Most of the people, I see, agree with the primary objectives of the global environment-saving movement. Yet, very few of them heed towards it when it comes to the practical application of that disposition. A whopping number of individuals expressing their support for environmental defense together with their acknowledged disinterest in meaningful endeavors got me thinking, What are we up to? I am not for a moment saying that I am a steward in environmental protection. I am not but at least I put in every bit I can to make this planet a worth living place and here I am with my e-book - A complete Think Green, Act Green Handbook for earth-friendly people! This e-book is for all those people who want to protect Mother Earth but dont know how to do that. If you are concerned over the ongoing environmental degradation and want to know how

you can contribute towards protecting the planet - this e-book is a must-read for you. Basically, A complete Think Green, Act Green Handbook for earth-friendly people is an e-book that attempts to educate the common masses about the green lifestyle and how it can reverse ecological degradation. The book is literally replete with practical suggestions on green living which anybody can implement in his/ her lifestyle. We believe that the destruction that has been done to the environment over all these years cannot be reversed overnight. You cant expect communities, Governments and industries to transform so quickly. Can you? We are not even expecting some miraculously instant solutions. We however are convinced in the head that small steps can make really BIG differences and this is exactly what our e-book says. You dont own the whole of this planet, agreed but being a part of this big community it is your earnest obligation to do your bit to save it. Isnt it? So, its time we realize our obligation towards our bigger home and get into action, NOW! All of us lead excessively busy lives these days and this makes us wrestle with the idea on how to strike a balance between environmental stewardship and modern lifes pressures. In our e-book we have explained how a healthy balance can be struck by following a handful of simple practices. Our e-book is a complete recourse on green living and everything you wanted to know about sustainable development. The message has been portrayed in a very clear and understandable language so that there is not even the slightest difficulty in catching the essence of the book. Also, the book follows an empathetic tone so that the readers easily associate themselves with what is being said in therein. We have cut out our book into ten distinct chapters. Every chapter focuses on a different branch of green living including green shopping, eating, driving, working, communicating... A comprehensive e-book addressing all the core Green Living issues. There must hardly be a person on this planet who is not aware of the current environmental crisis. All of us know about it. The e-book that I present to you will not re-iterate the need to act but it will definitely fill you with a sense of renewed consciousness to understand the gravity of the problem. A whooping number of copies have already been sold and if you dont want to let go of this incredible earth-saving resource, book your copies now! I have received numerous letters from people who have read this e-book. I must say that whosoever has read this e-book has found it really very valuable and interesting.
