PLUS: - If You Order Today You Also Get Full Resale Rights To This Product And Website So You Can Sell It Yourself And Keep Every Single Dollar You Make! How To Add RSS Feeds To Your Websites In A Flash ... For Free! What Im going to show you is exactly what I do on my own sites to help get them spidered quickly as well as get a LOT of repeat visits from the search engine spiders (this is a very good thing) to help give my search engine rankings a real BOOST. Now let me say - you dont have to be ultra technical to use these

tactics but you should be familiar with FTP and some HTML. If you're brand new to managing websites, you may find these tactics a little complicated. You get these powerful and little known tactics in the form of nine videos you view directly at your computer. I've bundled these nine powerful videos into a product called *How To Add *Automatically Updating* Content To Your Website -- For Free*. These nine videos come to a total playing time of eighty-nine minutes. Here's a quick run down of exactly what you get:

Video One (9 Minutes) In this video I'll talk you through how to recognize RSS feeds and where you can find some of the best ones to use online. Video Two (11 Minutes) Here I'll talk you through how to find Amazon and ClickBank RSS product feeds that you can add directly to your web sites. Some of these feeds can even be automatically set up to include your affiliate link - so you can profit with every click!

Video Three (12 Minutes) In this video I'll show you the quickest and easiest way to add automatically updating RSS feeds to your websites on a wide range of subjects. This is a great way to get your feet wet with almost no fiddling around with code needed at all. Video Four (14 Minutes) Here I'll talk you through how to create great formatted feeds from any RSS source, without doing any HTML coding at all! Video Five (6 Minutes) In this video I'll talk you through an advanced tactic allowing you to use RSS feeds with almost any kind of website. Video Six (14 Minutes) Here I'll talk you through how just a couple of lines of code added to any of your web pages can instantly add a fully formatted RSS feed of your choice. Video Seven (13 Minutes) In this video I'll talk you through my favorite free RSS feed software (it's incredibly powerful) and how to install it and start benefiting in just a couple of minutes. Video Eight (5 Minutes) Here I'll talk you through how to quickly and easily apply formatting to your RSS feeds so that they fit and match the look of your site (or even any other look you may want). Video Nine (6 Minutes) In this video I'll talk you through how to fully customize your RSS feeds - how to choose the number of headlines and descriptions that display, how to easily apply advanced formatting to your feeds ... and much more! For PCs Only - Not For Mac I must tell you that this eBook only works (to my knowledge) on PCs. If your computer is running Microsoft Windows, you won't have any trouble at all viewing this eBook successfully. However, if you're on a Mac you'll more than likely have trouble viewing it.
