A little bit about his life (a life you would understand more through the music than any amount of words on this page) ...but nonetheless: After completing his childhood quite successfully in the once-booming Pennsylvania Railroad hub, Altoona, our hero (like most young people of an adult status yet malleable mentality) was corralled into an institution of higher learning where he spent the better part of six years. While operating under the guise of a student of architecture, Brennon cultivated his love of traditional folk, blues and bluegrass, producing a vast body of musical work while becoming acquainted with a variety of instruments. After completing the academic chapter of his life, Brennon John, like so many who came before, packed his bags and headed for the Nashville skyline. He and his motley crew of wayward gypsy souls set up camp, surrounding themselves with kindred spirits of similar mind from all walks of life and many diverse locales... During his stay in Music city, Brennon released one album which is gaining both popularity and notoriety, VARIATIONS: I. After spending a year collaborating with some of the greatest talent music has to offer, Brennon John decided to walk away from the bright lights of Nashville to operate his music career from his home in the

Pennsylvania mountains.
