An organism, organ, or part consisting of two or more tissues of different genetic composition 2. A mythical creature compounded of incongruous parts This record is a collection of songs that span a wide period of time and come from many different experiences. There are three live tracks, recorded at three different shows from the last couple of years. There are two new original tracks that I recorded myself in my apartment in Northampton, MA. There is a cover song, first recorded in the studio with a full band in 2005 and finished in 2006. And there is a new version of an old song. The timeframe in which these songs were written spans from 1999 to 2008 (or 1973 to 2008, if you count when Bob Dylan wrote the chorus for Wagon Wheel). These disparate pieces are now united into a single work. In short, this record is something of a chimera.
