They were created to relax and entertain your child as they help build confidence, boost self-esteem, encourage positive thoughts, and promote sleep. Awake or asleep, their developing minds will absorb the positive messages incorporated in the songs. Most notable are those that teach them to love themselves and others by emphasizing such things as family, things to be thankful for, and the Golden Rule. 'JAMMIES TO DREAMLAND' can be utilized for a BEDTIME RITUAL ROUTINE. It begins with a few get-ready-for-bed type tunes to help them wind down, followed by a cute little bedtime story song with sound effects. The next tune involves the child's participation whereby they are asked to list things they are grateful for; and then another song created to help them CONQUER THEIR FEARS (of the dark and more). The remaining melodies are lullabies followed by some relaxing instrumentals from a few of the earlier songs. This CD features various artists, including Kiki Ebsen (daughter of the famous late Hollywood actor Buddy Ebsen), Troy Hollye Dexter, Keely Sims, Christiane Cargill-Kinney, D. LaShell, and the very talented child singers Corry Joyce and Shira Bouskila. The instrumental musicians include GRAMMY AWARD WINNING GUITARIST Randy Mitchell, Violinist Peter Kent, Flute/Clarinet player Geoff Nudell, Keyboardist/Guitarist John Thomas, Harpist Katrina Saroyan, Pianist/Keyboardist Kiki Ebsen finally Troy Dexter who played all the instruments on the songs he performed on vocally. Although

they are mainly for babies small children, these gentle ballads have been known to send entire families to dreamland! Note: The Perfect Gift for new parents, grandparents, and any family with little ones....
