New American Folk 12 MP3 Songs FOLK: Modern Folk, FOLK: Power-folk Details: Fable is a New American Folk group with roots in traditional folk, classical, country, Celtic, and gospel music. Their poignant stories are supported by acoustic instruments, haunting melodies, beautiful harmonies, lyrical violin, and the occasional keyboard and electric guitar. The songs are thought provoking, emotionally charged observations of the times and history we share. The words are tender, political, philosophical, edgy, and romantic.
