Soulful, Intense, Noise, time changes from hell. METAL 10 MP3 Songs METAL: Thrash/Speed Metal, METAL: Doom/Stoner Metal Details: Bio- Hostile, a four piece band hailing from Porterville, Ca., bring the heavy back into the metal music scene. The band's old school death metal style attracts new school listeners as well as creates an air of nostalgia for the rock days of old. Sharing the stage with likes of Armored Saint, Hostile broadens its fanbase with every performance. They've come a long way since their formation in 1997 from playing house parties in a small basement to playing the Sunset Strip. Their style spawns from heavy Pantera, Sepultura and Slayer influences. They play. You listen. That's how it goes at a Hostile show. Enjoy.
