Electronic indie-rock hybrid...Fenders battle Moogs. 9 MP3 Songs ROCK: Modern Rock, ELECTRONIC: Trip Hop Details: Null Objct is an LA based musical project by guitarist and composer, Gary Hebert. Null Objct's sound is a fusion of different approaches. It has as much in common with the indie rock world as with techno. The sound can, however, be distilled down to its most fundamental elements, Fenders battle Moogs. It is equally loop based, programmed, structured, and free-form. Don't let this throw you off, however. It is not conceptual, avant-garde, unlistenable experimentation. Null Objct's music is rhythmic, yet atmospheric. His style has been compared to DJ Shadow, Tortoise, Crystal Method, Sonic Youth, and Radiohead. Still, It all comes together neatly in a unique but coherent whole.
