Musical, thought-provoking, interesting multi-styled. 12 MP3 Songs URBAN/R&B: R&B Pop Crossover, URBAN/R&B: Contemporary urban Details: Born and raised on Maryland's Eastern Shore, playing drums at an early age, in school marching bands, later taught self the guitar, playing in school talent shows, eventually clubs. By word of mouth, caught the attention of influential university stage band members at the University of Maryland, Eastern Shore. Toured with them and also joined the popular R&B group, "Imani". Eventually relocating to Washington, D.C. with brother on bass, formed the group, "NBT". Original songwriting eventually landed one song in the movie, "Vigilante", starring Fred Williamson. Just released the new original CD, "Social Vitamin", 2007. While the music industry has changed, a good song has not. My goal and my pleasure is to write honest music that you will make you feel it.
