Female fronted Psychedelic-Folk. Wall of sound reverb fortress. Melancholy yet hopeful. 10 MP3 Songs in this album (43:53) ! Related styles: FOLK: Psych-folk, ROCK: Psychedelic People who are interested in The Velvet Underground Neko Case Beach House should consider this download. Details: THE DIAMOND CENTER pairs a wall of reverb and noise with an eerie gothic country creeper, creating an unique blend that is hard to put a finger on. Influenced by albums spanning the musical spectrum, they hint of Phil Spector and Joe Meeks experimental studio style, the live rawness of the Velvet Underground, as well as the nouveau psych-folk stylings of the Brian Jonestown Massacre and Espers. The debut album from The Diamond Center, Claws Flaws, was a little gem that few heard, but those who did raved about it. The band has been compared favorably to Neko Case, Loretta Lynn, and My Morning Jacket, and called everything from psychedelic alt. country to noisy cowpunk. With their second full length cd, My Only Companion (due out May 2009), THE DIAMOND CENTER have created a cohesive body of work that draws upon the melancholy bitterness and the unexpected sweetness of life through haunting vocals, minimalist percussion and layers of reverb drenched swirling guitars.
