This 11-song disc evokes the sonic textures of 'The Band, Wilco and Dream Syndicate co-mingled with the best of America's folk rock roots. 11 MP3 Songs ROCK: Folk Rock, FOLK: Modern Folk Details: Todd Giudice's CD 'Destination Venus' is a glimpse at the human condition. It attempts to understand love of self, friendship, humanity, intimacy and romance. On the surface, it's a collection of tuneful pop songs. But as the listener gets closer to these songs, he or she begins to feel the deeper emotional components woven into the melodies: beauty, elation, loss and regret. The intensity of these feelings is conveyed in the throbbing electric guitars and rock production, while under all this there lies an acoustic presence which implies a gentle and empathetic soul. "reminiscent of Paul Westerberg's pop sensibilities, with that raunchy, but graceful sound." Poughkeepsie Journal "Giudice blends melodic guitar waves with vocals that run the gamut from lush to desperately emotive." Woodstock Times
