Healing, meaningful and beautiful solo piano music to help bring you back to yourself. 12 MP3 Songs in this album (42:06) ! Related styles: NEW AGE: Energy Healing, NEW AGE: Solo Instrumental People who are interested in Yanni George Winston Brian Eno should consider this download. Details: If youre looking for music to help you chill, youve come to the right CD. Release soothes, and creates an musical atmosphere to help you replenish the spirit. Release is a collection of piano solos by composer/pianist Adrian Carr designed to help you sit back, detach from stress and put you in touch with the beauty of this moment. The sound of the piano as well as the progression of pieces is designed to help stress fall away allowing a heightened sense of wellbeing. Release started out as a collaboration between Adrian and renown Sivanada Yoga Instructor Bhaskar Goswami for the CD, Open Yoga. However, the music was instantly recognized and appreciated as many people started asking if the music was available on its own. Adrian responded by remixing and remastering the music and wound up adding two more solos to complete the collection, Light and Empty Spaces, which round out the collection with their strong melodic profiles that create a universal appeal. Whether you just want beautiful acoustic music for relaxation, the background for a yoga class or whether you are looking for soft gentle piano solos, Release will reward. The album was recorded using a vintage Baldwin S-10 concert grand piano from the 1920s. The rich beautiful sound of the instrument really comes through in this impeccable high resolution audiophile recording. Release is a CD that will be sure to last in your collection, a CD that you will come back to time and time again. Most emotional new age pianist Inewage Radio Adrian Carrs piano music is decompressive, fresh and uplifting. Robin Caudell, Press Republican, New York
