Learn the one thing that will be the most important part of starting your retail business. 1 Area of your business plan that you must know a LOT about if you are going to be successful. The 3 major types of businesses you'll have to choose from when starting up in retail... and which is right for you. How being conscious of your surroundings can help you pick the best business for your area. 2 questions to ask yourself when deciding what market to enter. What you need to be aware of if you decide to open a franchise. Why it is important to know your market before opening up your own retail outlet. 3 ways to test the demand of your market before setting up shop (and possibly wasting a lot of money). 7 areas of owning a retail business that you must know, learn, or hire someone to know something about if you want success! What you need to know about your competition to survive in the same market. 5 ways to "compete" with your competition by NOT competing with them. Learn the important and necessary details of registering your business. How to deal with taxes and the forms you'll need to fill out each year. 7 steps to creating an impressive marketing plan. Understand where to place your items in your store for maximum sales. 7 reasons why most new retail businesses fail - and how to avoid them. Learn how to use advertising properly - and how to thrive during a bad economy - with 5 relatively cheap ways to get your business name out. Learn the importance of good bookkeeping on the success of your business. And there's MUCH more - guaranteed! "Who Else Wants To Learn The Nitty Gritty Of Becoming Your Own Boss With A Retail Business?!" "Retail Business Riches" is 30+ pages of information that will teach you all you need to know about how to get started in the industry. Even if you've never heard of the terms "Sole Proprietorship" or "Supply And Demand," (two terms you'll need to know!), this ebook will be more than enough to catch you up to speed and send you sailing towards your own successful retail business.

You may never have taken a business class, but this won't stop you from learning what you'll need to include in your business plan to make sure you're successful. I made sure this ebook could take anyone, with no business experience necessary, and send them on the path to financial freedom with their own retail business. I want to make sure you understand that you can choose almost any type of store you choose. Just find the right location and demand, and you can take your passion for anything and make it into your own successful retail store. (Using the Internet OR Brick & Mortar style of business.) You're going to find out what you need to know if the banks are going to take you seriously. (They can be your best friend when you're starting up. You just need to know what to show them!) Just remember... "No Business Experience Necessary!" Getting a degree in business is great if you want to work for someone else. But if you're going to work for yourself, who do you need to show that degree too? In 30+ pages I give you a quick rundown on what you could have learned for \$50,000 in college tuition fees. I'll catch you up and send you on your way. For a lot less than that. If you want to be your own boss... escape the rat race... be in control of your own future... I can show you for the price of one very cheap "textbook." For just \$17, you can start telling your friends about your exciting new venture. To start your new life, just click the button below!
