Dear Friend, Last season we saw a huge explosion of bloggers coming online for the first time. Yes I know blogging has been around in the days of hard coding through HTML, though they used to called it by another name... Right this minute thousands of people just like you are realizing their dreams. They dont struggle to pay their bills each month or worry about the rising cost of everything, and they dont sacrifice what they want for what they can afford because they can afford everything they want! Imagine yourself in a new car, dining in expensive restaurants whenever you want, buying expensive gifts for your friends and family, taking luxury vacations and being treated with the respect you deserve. Its a great image, isnt it? And its absolutely right in front of you! Imagine living the good life, every day, all the time, and having the time to enjoy it all. on my blogs (not a single blog) every single day, making my site look fresh with resources and virtually feeding the Search Engine Spiders. The biggest blow or revelation should I call it, came to me when one of my clients came to me and asked me why I have not update my site for months...and there I was with jars ajarred staring backat him thinking of a fast get away....in the first place I wasn't even sure that anyone will notice about the inconsistency of my blog posts...but they do! So I went a step further..looking for answers on how to automate my blogs and I have even tried software programs of up to hundreds of dollars to do this, in fact I have a Script that's costing me thousands of dollars and months of development that is ongoing right at this moment of writing. but the whole point is that I have found free resources to do just that....AUTOMATE MY BLOGS.
