Wonderfully relaxing and romantic, pianomusic with substance, love and warmth. 14 MP3 Songs EASY LISTENING: Background Music, CLASSICAL: New Age Details: I am honored to write this article about my friend I went to school with (Lyceum). Brigitte von Bulow, Australian, recently moved to the USA. Her spirituality is beautifully expressed in her new album, *Doves of Peace* . What can I say about her music other than it is magically blissful? Many *New Age* music has come onto the market the last 10 years and there is much choice. Some of the music stays with you for a long time and some you forget immediately as it did not touch any chord in your heart: the music created by Brigitte stays and stays and stays and you want to hear it again and again. Her *New Age* music is different in that it has a classical abundant undertone and is very easy to listen to. I have her CD in my car and on my daily commute of 45 minutes into New York, I feel very relaxed and sort of *out of this world* at the same time. The aggression of other cardrivers do not seem to upset me anymore (which it did in the past) and I arrive at my office without having my forehead in wrinkles and less hypostressed (my secretary says so and she knows, she is like me, Italian!) I sincerely ask you to check for yourself and buy one of her CD's and let me know what you think, I am very interested to hear your comments! A third CD is on its way. To conclude: her other great friend and supporter in all she does, is the Australian composer Ken Davis. (kendavismusic.com) She is a member of CPCC (Contemporary Composers). JP di Montera New York
