With every song, LAURIE FOXX will keep you spellbound! Here's what the Press thinks about Laurie Foxx's CD, "Angels on Parade": LAURIE FOXX brings home an adult contemporary, singer/songwriter, progressive pop approach to the world with her latest album Angels On Parade. Laurie is definitely one of those artists who bleeds inspiration with her lyrics. The words that she so eloquently combines in her verses transpire into a beauty that I have yet to hear until now. Laurie's vocals are exquisite, while her passion is poured heavily into every song. I loved the artistic take on the music arrangements and the melodies. There is almost an operatic effect to the music that gives it the complexity and power. In other words, you simply couldn't dream up music like this. It's off the wall enough to create an interest, but with the groove enough to keep you at attention. LAURIE FOXX has created an album of songwriting superiority. Very progressive and very eclectic. This is music that you're probably not going to hear on your local top 40 radio station, but for those who love music with substance, this is top choice." The Rundown-MusicDish "LAURIE FOXX bridges the gap between Rufus Wainwright and Ben Folds Five with an occasional guitar pop song for good measure." LAS VEGAS WEEKLY reporting on EAT'M performers (Emerging Artists and Talent In Music) "If your tastes in pop music run slightly askew of the norm, you would be hard pressed to find a better practitioner than -LAURIE FOXX. "Angels on Parade," combines memorable melodies, excellent musicianship and off-the-wall lyrics that reflect vulnerability without wallowing in victimization. My favorite is "Angels on Parade," an unabashed love song with a gorgeous melody.

Another winner is "Whirling Dervish," a soaring Middle-Eastern romp with a dash of Led Zepellin. I also liked "Narrowly Lost My Mind," an ode to the joys and pitfalls of obsession. FOXX wrote or co-wrote all these tunes...having seen her perform live, I can testify she also plays a mean piano. -Count von Teleke - URBAN BEAT MAGAZINE "The new CD, angels on parade, defines the limitless boundaries of Laurie's talent as a creative singer, songwriter, and a magical piano aficionado." -Houston press
