It is an indescribable sound. Tracks: Circurrence The album starts with a Circurrence as an attempt to capture the literally millions of butterflies leaving the trees en masse. Islands The album moves on to Islands where some of the butterflies stop on their way home. Daydreams The journey continues with Daydreams in the loneliness of flight over vast stretches of ocean, desert, forest. Reverie Do butterflies daydream? Perhaps they do, and if so, perhaps they remember other journeys from home to home as in this piece called Reverie. Memoriam And lastly, they arrive in the city. Some terrible thing has happened and their favorite haunts are no longer there. They circle above the wreckage, like angels, wondering if their journey here was in vain. Like so many of us, wondering if we are going in the right direction and is the trip worth it.
