Alternative pop that sometimes rocks, and a slightly Celtic flavoring... 6 MP3 Songs POP: Delicate, ROCK: Roots Rock Details: Sara Wendt's songs from her City Canyons Records EP, HERE'S US, are a study in contrasts, rocking yet delicate and nuanced, tough yet tender, and reflective yet electrifying, featuring haunting overtones that make her music both vivid and dreamy. Sara's music has been described as alternative pop rock with a light sprinkle of Celtic seasoning but that description leaves volumes unsaid. Sara's music, both exhilarating and aching, goes straight through the ear to the heart. And while Sara's voice may be deceptively gentle at times, there's a power there just under the surface that can and will burst forth. While her debut CD, PARACHUTE charted as a top play on national radio stations and reviewers called her tunes, "music for your dreams," Sara reaches her full powers as an artist with HERE'S US creating lush and beautifully crafted alternative pop music and clothing it in lyrics with the color and brilliance of jewels.
