Thomascows version Cry Me a River is a 1950s blues ballad written by Arthur Hamilton and first published in 1953. It was originally written for Ella Fitzgerald to sing in the 1920s-set film, Pete Kelly's Blues (released 1955). However the song was dropped. The song's first release was by singer Julie London in 1955. A hot performance of the song by London in the 1956 film The Girl Can't Help It helped to make it a million-selling hit. Enjoy
