

# Education And Equity: International Perspectives On Theory And Policy

[DOWNLOAD HERE](#)

Inequality is a marked and persistent feature of education systems, both in the developed and the developing worlds. Major gaps in opportunity and in outcomes have become more critical than in the past, thanks to the knowledge economy and globalization. More and more populations, both rich and poor depend on successful use of school and on gaining post-school qualifications. But access to high-quality schooling, success at school, and chances of higher education all remain socially divided, with implications for economic opportunities, personal growth, and civic and community development.
