[DOWNLOAD HERE](#)

Uses the intimate, emotional laboratory of his compositions to express an unusual lyrical and melodic awareness. 10 MP3 Songs POP: Piano, EASY LISTENING: Ballads Details: Im sick of writing about my music in the third person so im gonna just try and tell you who i am and what i do. I'm from Birmingham, England. Ive been lucky enough to work with some great musicians in the uk.. Now Im living in Porto, Portugal with my wife Joana and am finding the change in culture very stimulating and am currently recording an album with some really dapper Portuguese fellows!! ..Weve got quite an unusual band which is made up of guitar, piano, voice and drums (a trio), we all play a few instruments so we alternate between who plays what Ive got too much music to ever put into one cd or 10 even but the stuff you see here is just a small part of the last 2 to 4 years work. I advise anyone to listen to this stuff cos I think its great its honest and sincere and isnt that what its all about? (sounds quite nice too) Thanks for checking it out. dan
