It's the good make. Intelligent Rock. 6 MP3 Songs ROCK: Hard Rock, ROCK: Progressive Rock Details: If there is innocence in music, it is drowned out by the background noise of the commercial scene. We've been rocking long enough to know that. Innocent Noise has forged itself and its music into a magnetic force that has attracted fans in ever greater numbers and ever stronger loyalty. Selling out the Whiskey a Go-Go in LA, playing at Qualcomm Stadium in San Diego, and Coors Amphitheater for Rock 105.3's Van Drop, as well as receiving global acclaim on Garageband are just some of the band's most proud achievements. We've worked hard to win the respect of fans and fellow musicians as well. The sound? Driving funky rhythms, melodic structure, and strong tribal beats. Combining eccentric licks, aggressive power chords and urgently poetic vocals, the band is influenced by several past and present bands and performers. Innocent Noise is P-Funk on guitar and Brent Wetli on drums, who founded the band in 1994. Bassist Dave Howe joined the cause in 1998, completing our instrumental odyssey but not our quest for every band's holy grail, the right human instrument out front. That happened in early 2004 with the addition of lead singer Craig Harrison, a drum and bass dj and vocalist from Palm Beach, Florida. Now with our devoted fans, friends, and our first produced album in the works we are even more driven to play and record music as it's what we do best. Are we innocent? Is it noise? We intend to rock the world until we get some answers... In the meantime, you decide.
