Groove meets soul with a dash o' blues n pop, I'd say. 12 MP3 Songs POP: with Live-band Production, BLUES: Piano Blues Details: I'm a Perth born muso from Western Australia. I started with classical piano, which got me into WAAPA (WA Academy of Performing Arts), then changed to jazz vocals, which got me nowhere now my music is influenced by both these genres as well as country, funk, blues pop to create my own sound. I don't think I fit into a genre box some people find that difficult to take. I've named my album 'Company' - not just because one of my babies on the album is titled same, but because the company I keep is so contrasting in their respective tastes in music; it's refreshing to know that our styles can come together in appreciation - hence my album being so varied - although i was told that was a big no-no. So I hope you buy it dig it.
