(His brand new CD, No Pressure System, features a who's who of guest artists and collaborators from the Philosopher Kings, Jamiroquai, and the Norah Jones Band.) Kemal has been involved with music literally all his life: his parents were professional musicians, which meant that Kemal got to tour with Gino Vanelli as an infant in 1980. Although his parents eventually separated, Kemal was strongly influenced by his African father, one of the best percussionists and hand drummers in Canada. Growing up on Salt Spring Island, Kemal learned to play guitar, piano, bass and drums. Later, he got varied professional experience playing as part of a hip hop crew for eight years, in between stints as a drummer in both a funk and a heavy metal band. Eventually, though, becoming a singer-songwriter was what mattered; and so, guitar in hand, Kemal wrote songs from the heart, while incorporating and blending a wide array of styles. Influenced by everyone from Marvin Gaye to the Red Hot Chili Peppers, Kemal has become a master of funky beats and ear-catching melodies: his bands seductive, electro-acoustic sound grabs the audience and lures them out onto the dance floor for a sweaty, ass-shaking good time. But beneath the bright, highly rhythmic surface of the music there is a soulful thoughtfulness a bedrock of songwriting craft and emotional insight that stays with listeners long after the notes drift away. Kemal's strongest impulse is to share his music, and he loves being able to reach and move an audience. A true creator, Kemal has committed himself to a life where making music

is whats truly important. People who are interested in Jack Johnson John Mayer Ben Harper should consider this download.
