

Mp3 The Black Sea - Spacewalk

Instrumental Space Rock, Head Shop Dub, Alien Soundtracks. 8 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Down Tempo Details: Spacewalk looks to the Germans for inspiration and guidance. Cold and clinical spacerock was the goal. Despite our best efforts, the many analog synths, organs and guitars we drew from added warmth and dirt to the mix. It could not be avoided. Random sound bytes dealing with outer space and the aliens that may or may not call it their home are sprinkled throughout. Good luck figuring out where they are from. The beats included are not for dancing. They exist simply to move the songs along. Like all good headphone music, you don't need drugs to enjoy Spacewalk but they can't hurt.
