

Mp3 Antoinette Montague - Pretty Blues

[DOWNLOAD HERE](#)

Jazz Vocalist , great blues and swing 12 MP3 Songs JAZZ: Jazz Vocals, JAZZ: Traditional Jazz Combo
Details: Pretty Blues is not a "garden variety" release of standards. No, It's a precisely chosen mix of ballads, blues and swing. Whith her song selection, Antoinette creates a mood that lets you know that what she has is special. Every selection is personal and a tribute to her mentors and to those who influenced her musically. And her mentors include the legendary Carrie Smith and our late, beloved Etta Jones. A lesser singer might have shied away from recording songs taht are so indentified with others, but not Antoinette. I can listen to her renditions of "Dedicated to You" , "Teach Me Tonight", and "At Last", without longing to hear the versions by Johnny Hartman, Etta Jones or Etta James. Humility and excellence is what Antoinette brings to her debut recording. It has been a long time coming but it was worth the wait.
