

Mp3 Carroll Brown - Homegrown Love

[DOWNLOAD HERE](#)

A collection of favorites from his previous singer/songwriter albums. Folk and pop sounding with a country and eastern thread running through. 20 MP3 Songs FOLK: Modern Folk, COUNTRY: Americana Show all album songs: Homegrown Love Songs Details: About Carroll Brown I'm glad you dropped by ... My name is Carroll Brown and I've made my living performing and recording popular and original acoustic music since 1974. For those of you who don't know me, my musical talents have been described as very good and my shows and recordings are lively and entertaining and contain songs and stories of real people and events. I play a good guitar, write a decent song and sing on pitch. My projects are professionally recorded and seldom disappoint the buyer. Much of my work is performed solo in music pubs and concert events throughout the American southeast. Many of these events are filled with college kids and some cater to older folks. I don't play with any electronic side equipment and I don't crack up any guitars in my show, but many listeners go out of the way to come back again. Many bring their parents or their friends when they return and that is a part of what motivates me to continue to do what makes my living. Supporting my family is the main reason I work as hard as I do (see schedule). My wife (since 1976) and son and daughter are a great source of strength for me. We live on my ancestral family farm in rural central South Carolina. I'm not home enough to help much on the farm but I would never live anywhere else. Other information about my performances and traveling (including trips to Ireland) and our recordings, etc. can be found on my website at CarrollBrownMusic.com. For now, I'll just say.... I'm glad you found me here and I hope to see you sometime soon. This Homegrown Love disc is a collection of requested favorites from four of my previous albums and includes one bonus song. It is an effort to represent my recorded musical work at large and myself as an artist in storied song. Information about my other recordings and myself can be found on my

websites....carrollbrownmusic.com.....myspace.com/carrollbrown Thanks so much for your support which helps me provide for my family! CB
