(615)554-0774 I began rapping at the age of 12 by competing in local talent shows. I was raised by a single mother with two sisters and one brother in Murfreesboro housing projects. At age 17,I receive my first independent recording contract. It was a learning experience even though the company finally ended because of financial reasons. As a result of this, I enrolled at Middle Tennessee State University to pursue a music business degree. During that time, I released a E.P. called Take It 2 The Man. The E.P. helped establish a name for me locally. Three Years later the album, The Year Of The Pantha, was created. Yes that means I have formed my own Independent record company. I wrote all the lyrics and produced the tracks. My objective is to let the world know that there is a real Pantha out there who is ready to Take It 2 The Man. P.S.-Look for the new album,Behind Enemy Lines,coming soon!!!
