Sexy, sultry, vocal pop with groovy, trip-hop beats and jazzy sounds. 10 MP3 Songs POP: Delicate, JAZZ: Smooth Jazz Details: The sexy, solid grooves of trip-hop. The rich tonality and ethic of a jazz quartet. Intelligent lyrics and sensuous pop melodies. These are the elements that make up EDGE OF THE SUN. The second original release on Lionstar Records, EDGE OF THE SUN - A Higher Place, will strike a chord with people who enjoy the sounds of Sade, Norah Jones and any music of simple, groovy elegance. EDGE OF THE SUN features David Gunderloy sharing lead vocal "duties" with the late, great and amazingly talented Kathi Angel. Kathi, who passed on in January of 2004, worked with major artists including Lionel Richie, The Ohio Players and Rockwell to name a few. Kathi was also heard most Sunday mornings singing at the New Ground Church located in West Hollywood, California. We miss Kathi so much ('til we meet again my most beautiful friend!). Also on board is the incredible Toby Veach on soprano and tenor saxophones. Toby's playing is relatively new to the West Coast. He hails from Chicago where he wowed the local scene with the virtuosity of his soloing. His stellar work with EDGE OF THE SUN promises to put Toby on the international map! We know They'll love it too (and they'll thank you too for turning them on to EDGE OF THE SUN!)
