Independent electronic music 11 MP3 Songs in this album (51:28)! Related styles: ELECTRONIC: Disco, POP: Synth Pop People who are interested in Depeche Mode Pet Shop Boys New Order should consider this download. Details: Here it is - my fourth official release! Ive always wanted to make a dance album but never believed this would ever work out right because most of the time I tend to get bored due to stereotype bass drums and repetitions. But I think this time I've made it! Though Ive been creating songs for a long time I always try not to repeat myself over and over again what is to be true not that easy not to do. Nevertheless I would say the combination of dance music and borderline lyrics justifies its existence in itself. I simply like to question things. Let's call it antipathy to conservatism mixed with open-mindedness and subtle irony. Thanks to Markus Kretschmer who did a great job doing the mixing again according to my input and thanks to Andreas Kupfer for the superb mastering which makes my songs sound as if all of them had been produced in one go. The average music consumer will take this homogeneous production for granted but I definitely do not! Thank you all so much! Jens Bader September 2008
