World folk with Balkan influences 13 MP3 Songs WORLD: Western European, FOLK: Modern Folk  
Details: Kalio Gayo Worldfolk Inspired by music from from all over the world, the worldfolk of Kalio Gayo is mainly influenced by eastern Europe. The beautiful harmonies, an adventurous banjo, fast rhythms, decorated with some accordion, ensure energetic songs. Compelling music with a Balkan touch. Kalio Gayos repertoire is cheerful with a melancholic edge. The sounds take you on a trip along various landscapes, distant plains and deep lakes but also to a village square or the warm streets of a metropolis. The lyrics, written in Blabberatsch, a language that nobody can speak but everyone can understand, are little stories about quarreling neighbours, a brave bird, rain after the drought or the return home after a long journey. The sound of Kalio Gayo has developed from the bandmembers musical roots, partyfolk and punk. Unpretentious, full of ambition and plans, Kalio Gayo follows her own path. The desire to play never stops, there will always be a story to tell.
