In composing, I mix my favorite blues, pop and classical styles for a contemporary solo piano sound which speaks to me of today's life. Listen for the whisper of an evening breeze, the splash of a mountain stream, and the rush of Friday's traffic. Listen for anger, acceptance, love, lust, pleasure, pain, and prayer. Now let the music move through you, and listen to the life we share". A passionate pianist and a prolific composer, Lisa Hilton grew up in a very musical family. Her piano has been compared favorably to fellow pianists Oscar Peterson, Bill Evans and George Shearing but her style is all her own. Hilton's beautiful melodies, catchy beats and emotionally played music appeals to listeners of all ages and is played on radio across the US as well as internationally.
