Effortlessly combining symphonic chamber pop with the most raw, visceral and expert melodic acrobatics, the co-ed sextet employs the distinct use of harmonic vocals, mandolin, theremin, bass clarinet, and all manner of exclamatory percussion minutia to foil the even more distinct and arresting voice of lead singer/multi-instrumentalist Ritchie Young. Luring the listener with the unique range and power of his voice, Young is able to switch from high-pitched fragility to alto thunder in the turn of a phrase, yet he knows the power of restraint intuitively, saving vocal tornadoes for emotional apexes buoyed by string swells and moving arrangements. Few bands, especially of Loch Lomonds unique ilk, come from as disparate of backgrounds or intents: some members are teachers; some are computer programmers, some are visual artists and small business owners, and almost all are former high school band nerds, although one would never know it given the bands tapestry-tight weave of mesmerizing grandeur. Recently having returned from a triumphant US tour as main support for The Decemberists (Singer Ritchie Youngs earnest demeanor belies his enormous voice, and the bands varying instruments flesh out his songs perfectly.EAR FARM; Loch Lomond deserve all the accolades they are getting.BrooklynVegan) and with an expertly creepy new video for new single Blue Lead Fences in hand, Loch Lomond is poised more now than ever to convert; to overwhelm, to stun.
