

Mp3 Pirate Eye Patch - Beats For Sale

[DOWNLOAD HERE](#)

Electronic/Alternative/Jazz with Hip Hop driven beats 11 MP3 Songs ELECTRONIC: Experimental, JAZZ: Acid Jazz Details: Pirate Eye Patch was born in 2002 in the quaint but effective Kitchen Studios of Indian Trail, NC. PEP is the brainchild of producer Bryan Verrone. He is originally from Washington DC, attended Hight Point University where he studied English communications and Art. Bryan married and moved to the Charlotte, NC suburbs with his wife and 3 daughters. He began the brainstorm project PEP as an outlet for his creative ability and natural affinity for beats. Bryan utilized instruments from all genres to create an innovative, creative, jazzy directive, and introspective piece of audible art. The rhythms of PEP are drawn from an appreciation for across-the-board captivating sounds. Verrone encompasses his love for jazz, blue grass, hip-hop, Latin and techno musical genres to create an experimental sample of what could be termed Elated Sound Experience! Genuine soul driven by a superlative collaboration of beats and rhythms. This album is multi-textured and unpredictable; the sound is unexpected, edgy and delightful. Very fresh approach! Produced and performed by Bryan Verrone.
