Poppa also promotes and produces several artists under his Platinum Factory Music Group, artist ranging from Hardcore Hip Hop to R&B to Alternative. Poppas eclectic formula for creating hot music is generated from his ability to dig deep into himself and apply it to his compositions. Poppa has always created music as a passion never slowing down always on the cutting edge of the next major thing. Poppa has chosen not to shop his demo in the past but now feel a since of urgency and has a goal to be the greatest rapper-singer-producer alive. He has continued in the studio completing his dual cd still untitled. With over 50 songs to choose from. Poppa is a true studio rat with completing as much as he can always in the back of his mind. Poppa is currently a Network Specialist for AT&T full time, and continues to work on new tracks with all his free time. Poppa completes on average of 3 - 4 songs per week. Constantly grinding to polish his sound. Poppa has completed several album projects yet to be released. His debut cd titled DL volume 1, and follow up with the alternative project titled Double It Up. Both great projects in there on right but never we're promoted or

shopped. There is no question that we're guaranteed to be hearing more of the name Poppa Dolla in the near future as he is a talent, a diamond in the rough, and the game has been missing and need a artist at the level of Poppa Dolla. Platinum Factory Records--Home of the Platinum Hitz
