

Mp3 Rebecca Helmer - Intrigued

[DOWNLOAD HERE](#)

Pop/rock with soul - a beautiful combination of rich vocals, clever lyrics and energetic instrumentality. 11 MP3 Songs POP: Today's Top 40, POP: Folk Pop Details: Rebecca Helmer - Song Writer, Vocals, Guitar, Piano: A singer her whole life, Rebecca began penning music at an early age. After picking up the guitar at 18, she set out with her new found passion; putting to music and performing her inspired and craftily written songs. Now those songs and many others have developed into Rebecca's own style of pop folk with soul. Her voice is also what sets her aside from all others. With perfect pitch and control, her clear, refined vocals deliver hook lines that remain with listeners long after her songs have been sung. Rebecca has performed acoustically throughout the Northwest for over two years. She has captured the eye and ear of many in the music industry including Roger Fisher (the founding guitarist of Heart), who recently co-produced Rebecca's new album "Intrigued." Since recording this album, Rebecca has moved from being a solo artist to heading a full performance band. She has welcomed their amazing talent and influences into her music, which makes for an incredible show that is best described with one word: goosebumps.
