Each song has it's own catchy theme and stunning vocals and production!

\*\*\*\*\* About the artist Born in Liverpool England in 1973, Robert Neary began his musical journey via the keyboard at the age of 11 and then re discovered music at the age of 15 thanks to his father who got started with 2 years worth of classic guitar lessons at his local school. Roberts father was a big Eric Clapton fan, and just like Clapton he started Robert playing electric guitar on his 16th birthday after buying him a guitar as a present. He learned how to play the electric guitar himself by jamming with friends and by listening to as many songs as he could by ear. Roberts biggest guitar influences where Steve Vai\*Joe Satriani\*Nuno Bettencourt\*Richie Kotzen\*Paul Gilbert and Yngwie Malmsteen. During his college years he joined a band called \*17CRASH\* for a brief time, and they played cover songs from \*SKID ROW\* and \*MOTLEY CRUE\* etc He performed live for both colleges he attended and was also asked to help with some musical stage production and an award evening. After college Robert became involved in ROCK SHOP which was run by HERBIE FLOWERS bassist with DAVID BOWIE during the 70s with ASIA and was a type of ROCK SCHOOL which pooled different musicians together to form a band and write a song in a week. The finale was a large rock

concert with each band performing one song live in front 500 people at the harlequin theatre in red hill. Roberts make shift band was called TIME and the song he wrote was called BE CAREFUL WHAT YOU DO and had a very BRIAN MAY solo in the middle and got the crowd going. After a spell out of the live scene and after various band auditions and a short stint playing for both KIMERA METALHEAD. Robert turned to his song writing abilities and began to put his first album together, which featured a collection of songs called \*EVOLUTION\* and was released via CDBABY.COM during 2002 and received positive feedback. So much so that one song \*I AM MACHINE\* was to be featured on the soundtrack to a movie and his song \*YOUR ALWAYS ON MY MIND\* was used on a new digital cable TV channel called TXTME TV to play in the background to promote the channel and they where so impressed they kept the song playing for another 6months!. Robert is very modest about his music skills, but usually stirs some interest when he plays in a music shop. \*\*I was playing a Reb beach IBANEZ guitar in a shop in California and this guy asked me if I would teach his daughter how to play\*\* \*\*The first time I discovered rimmers music in Chorley I had a go on an Ibanez SZ320 and after I finished the guy in the store said great playing! are you in a band or do you have a CD?\*\*\* \*\*At the 2005 London Guitar show I had a go on a 8 string guitar this guy makes and lets say I got a little carried away and then the guy turns the amp up and a small crowd starts to gather around the stand.how cool was that! I then went to the \*Pendells guitar stand\* and the had a play and he said, youre the besT player I have heard all day, you play like me!\*\* \*\*I have also been asked for my autograph twice, which was really cool!\*\* Robert has recently done collaborations with other artists on soundclickand has released 3 albums so far which are available at TowerRecords CDBABY and can be found at all good online stores. \*Evolution 2002 \*Freak machine 2004 \*Robot rock 2005 December He is currently reworking his image and writing new music to move into a more mainstream audience.
