TerryLee WHETSTONE's original compositions are Spiritually inspired and directed from his state-of-mind and surroundings in his rural country home. Many times he utilizes the flute as a gateway linking the past with the present and into the future! He believes that music is a universal language, so what better way to tell a story than through the breath of life. His Cherokee brother, James Seals is featured on guitar and percussions, creating a magical pairing with TerryLee's flutes. They accompany each other to perfection, with a timing that will send chills up your spine into the subconscious mind! Their mystical music reaches deep inside your soul and stirs something ancient into modern flight! The high energy of this album will find you being moved between relaxing to the voice of the flute and dancing to the rhythms of the guitar and drums. Kairos is being used for Reike, massage, exercise, deep meditation, and creating a positive mental state for healing. Kairos has been submitted to 2004 NAMA and ISMA. It is also featured on GON

Radio and many other webradio stations and multiple live radio stations, thus creating a world-wide following. The cover is one of TerryLee's paintings, 'Kairos', available in limited edition prints. This album also contains an artistic approach to Amazing Grace.
