

# Mp3 Thomas Ayresol - One Size Fits None

[DOWNLOAD HERE](#)

Experimental Rock Electronica, solid songs meet sci-fi soundtrack. 15 MP3 Songs ELECTRONIC:  
Experimental, ROCK: Progressive Rock Details: Imagine a sci-fi soundtrack with catchy yet odd songs, add some sample loops and moments of pure audio experimentation, and you might have an idea of what is going on with THOMAS AYRESOL. "One Size Fits None" is not a pure concept album, but deals with themes such as dissapointed robots, crash landing spacecraft, and futuristic pleasure-dome apathy. These days I'm inspired more by video games than other bands or artists. X-box games like Halo, Halo 2, Halflife 2 and Doom 3 have a knack for getting my creative juices flowing. Also, classic 70's sci-fi movies like THX 1138, Soilent Green, Logans Run, and Zardoz had a big influence on my fragile brain when I was a kid, and still inspire me to this day. When you hear samples and loops in my music, its 100 me! THOMAS AYRESOL NEVER SAMPLES OTHER BANDS OR ARTISTS MUSIC!!
