

Mp3 Ty Cy-phy - Silver And Blue

[DOWNLOAD HERE](#)

Soundtracks for Machina Candeo fire dance choreography. Electronica based Asian, jazz, middle eastern, industrial and tribal instrumentals. 17 MP3 Songs ELECTRONIC: Electronica, WORLD: World Fusion

Show all album songs: Silver and Blue Songs Details: Silver and Blue: is a collection of choreography music for Machina Candeo Fire Performance Company. The album was completely composed, produced and performed by Ty Cy-Phy (the company's creative director). The music is as dramatic and diverse as Machina Candeo's live shows. Fire and Dance are the themes of both the live performances and the recording of Silver and Blue. From lush ambiences, beautiful soundscapes, funky beats and mechanically jarring music; an incredibly original recording was created. The recording is a mixture of live instruments blended with technology. Musically each song is different. Persian, Asian, jazz, rock, African, techno and industrial influences are present throughout the 17 music tracks. The album is divided into two movements Silver (more uplifting music with a hint of darkness) and Blue (darker music with hints of beauty). Ty Cy-Phy: is a Los Angeles based musician, producer, recording engineer and, of course, an accomplished fire performer. Trained in classical music (and classical guitar) Ty Cy-Phy has been performing in progressive rock, pop, techno, goth-billy and art rock bands since he picked up a guitar at age 12. He also has worked on several soundtrack multimedia projects for some independent movies, technology companies and web media. Instruments on this Album: Synths, electronic percussion, electronic sounds and treatments, homemade vocal samples, Dholak (Indian drum), Dumbek (middle eastern drum), electric guitar, synth guitar, slide guitar, wah guitar, feedback guitar, fretless bass, 5 string bass, malfunctioning wah wah noise, home made guitar samples, custom fretless Persian lute, Cumbus (turkish oud/banjo), and bowed Cumbus.
