"Why Everyones Dead Wrong About What It Takes To Conquer The Search Engines" The source of most newbies information on how to get to the top of Google usually comes from "instant experts" on internet forums who have never made a sale in their lives. Read on to get the REAL scoop regarding how to get to the top of the search engines (HINT: youre not going to see any of this stuff on ANY forum or home study course!) Dear Fortunate Internet Marketer, If youve ever wanted to get as much traffic to your website to the point that making money online is drop-dead-easy, then this message will cut to the chase and give you the answers youre looking for Because Im going to share with you how you can skyrocket to the top of the search engines with LESS effort. You wont have to scratch your head wondering what to do next, youll discover it all in this "easy-to-read" video (more on that later). But before I tell you more about that, let me tell you straight up that: Everything You Know About Search Engine Marketing Is WRONG! Heres whats goin on: Have you ever searched internet forums looking for advice on what to do next with your marketing campaigns? This is where most people look when they want to make money online. They think every person on the forum is the "King of Internet Marketing" and their answers will give them the

hope they need to make money online. But heres the truth: most of these people dont know what theyre doing! If youve ever noticed, youll NEVER see big-name marketers hanging around in forums giving toxic, unproven advice that gets passed around and around. The worst part is this: most of these people will take that information, regurgitate it into an ebook or report, and spread it along the web like wildfire. These same people are doing the SAME stuff over and over again and getting NO results This is especially true with Search Engine Marketing Heres the deal: there are a lot of people masquerading as SEO experts and doling out the wrong advice on internet marketing forums. And newbies are taking this "information" and hitting the wall big time when it comes to making big money online. But theres one guy whos risen above the rest. His name is Jack Humphrey and he knows the REAL stuff regarding how to get traffic from Google. Why? Because He Literally Wrote The Book On How To Dominate The Search Engines (and Your Competition!) His book, "Power Linking" is one of the best books on search engine optimization. Its so good that marketers all over the world are buying it in droves so they can profit from this information. Even marketing whiz kid Russell Brunson bought Jacks book and gave it to all his employees. Thats pretty sweet considering Russells one of the best marketers on the planet. In the book, he talked about how most of the "online gurus" are DEAD WRONG when it comes to building link power for the internet. Google is starting to get smart to the methods to "work around" their rules; therefore, the astute marketer needs to get in gear if he/she wants to make money online. In fact, the books is so good that Russell Brunson decided to interview Jack so he can get more secrets that are not found anywhereeven in his OWN book! You get it all when you invest in: Untold Search Engine Marketing Secrets The Experts Dont Want You To Know! Power Linking Secrets is over an hour of hard-hitting information designed to give you the goods regarding whats working online. This is literally a Masters degree in search engine marketing and Jack really delivered the goods! Unless youve been living in a cave, you know that getting good rankings on the search engines is one of the most important things you can do for your online business. If youre not at least on the first page of Google, then youre probably getting 1-2 visitors per MONTH hardly enough to make a decent income! Power Linking Secrets will give you untold secrets only the top marketers have known for years. And youre not going to find this stuff on the forums! Here Are The Power Linking Secrets Youll Get In This Exclusive Audio: Why nobody pays attention to reciprocal linking which is probably the oldest SEO strategy in the book (Sorry, its not 1999 anymore!) The 1 source to get tons of links (HINT: youre not going to get this through ANY software or

"black-hat" strategy! The secret to linking to your site in an article or website (If youre just putting your URL on the page, youre wasting your time! The tip to using RSS to increase your link power and your fan base (This is where the good stuff is!) The 2 most important things you should be putting on your blogs to boost search engine traffic (most marketers totally screw this up!) The most important aspect of articles and how you can utilize this little-known info to boost the presence in your market (its not about putting "search engine fodder" online!) Should you outsource link building activities? Yes and NO! Find out what to outsource and what to do yourself (Dont worry, its not as hard as you think!) Is being on the top of Google the "holy grail" of marketing like everyone says? The answer will surprise you! .and a whole LOT more! So, How Much Are These Search Engine Tactics Worth To You! Heres whats goin on: most marketers will seriously spin their wheels trying to get high rankings in their website. Unfortunately most of the information out here is GARBAGE and the poor people who take action on this misinformation waste YEARS and \$1000s trying to figure it out themselves. Why not get the REAL scoop on what it takes to dominate the search engines today in 2009? Jack Humphrey is the guy thatll teach you the secrets. Hes an expert in power linking and teaches the secrets to the biggest marketers in the world. Best part? Hell do it for only (insert price).
