Hundreds if not thousands of new web sites are born each and every single day .. searching for their piece of the e-commerce pie. In this day and age, You need something to stand out from the crowd. Audio Streaming, Video Streaming, Podcasts, RSS Feeds, Blogging .. all of these concepts have taken off in the past few years and are the new "norm" online today. But there's one feature that is almost always present in each of these concepts and that's AUDIO. In fact, audio is now used on the regular both in product creation and in product promotion.
