[DOWNLOAD HERE](#)

With a mix of rock and worship, this Cd will move you. With the title song 'A Walk With God' reaching #19 on the Inspirational Charts this spring, many hearts have been moved. Be sure to share this with EVERYONE you know. 10 MP3 Songs ROCK: Acoustic, GOSPEL: Contemporary Gospel Details: World wide live television broadcast, in December of 2004, TCT Television Network; Chris was able to share four songs and testimony with 170 different nations. The title song 'A Walk With God' reaches #19 on the Inspiration Charts in Spring 2005. This means many hearts have been touched by the music Chris has written for this CD. This music will move you... Born and raised in Duluth Minnesota, Chris grew up in a musical family. Inspired by his father throughout the years, Chris started writing songs at the age of 11 and found his calling in Christian music after his move to Nashville Tennessee. Rededicating his life to Christ in 1996, Chris found that his songs were meant to be in a place where it mattered most. "If even one person is touched by this CD, or finds there way to the Lord through my music, then all that I have done to get to this point was worth it. I haven't been called to preach, or be an evangelist, my ministry is my voice through my music, and the message comes straight from God, I know I couldn't write this stuff on my own." Having been in the Air Force, Chris has had the experience to travel throughout the world and much of his inspiration for the songs he has written come from meeting so many people in so many different cultures. "We truly don't know how beautiful the world is and also how much pain there is in the world until we get to see it first hand, and meet the people in it." "This is just the beginning." -Chris says- "This cd was inspired by God, and with the amount of feedback I've been given up to this point, more than just a few hearts are being changed." I pray you take the time to listen, and share it with those around you.
