

Mp3 Cos - The Approaching Storm

Light jazz fusion crossed with film scoring mentality; and one step further: the whole album is a musical film in and of itself, a musical journey where no silence can be found. 11 MP3 Songs JAZZ: Jazz Fusion, EASY LISTENING: Mood Music Details: The Approaching Storm spearheads one of the the newest musical genres: Film Fusion. It combines the full length album story-telling genius of Roger Waters (of Pink Floyd Fame) with the often eclectic, yet cohesive tracks found on film scores and soundtracks. Jerome Salyers and Patrick Zimmermann are taking concept albums forward into the Fusion world. From the opening opus of Storm Watch, which takes us from fusion and jazz, through to a childlike piano and finishes with a traditional orchestrated film score sound, to The Path that Leads Us On, an uplifting pop song, the entire album tells a story of human emotion searching for a home to rest. On the shore of a wide, blue ocean, we wonder at the contradictions of modern life; in the streets of a sleeping city, we find the night's darker side; under a streetlight we grasp at a fleeting realization; in a barnyard, we find peace. Fusion, latin jazz, pop, ambient, film score: it's all here to tell the tale of one end of life to another.
