Smooth Fusion Jazz featuring stellar saxophone precision 12 MP3 Songs JAZZ: Smooth Jazz, POP: with Live-band Production Details: A composer who decides to create an album of original works sets out on a journey of self-discovery and personal realization. The creative process, driven by an inner awakening, is thus translated into the collective musical arena. Towards this goal there should be no compromise.

Along with the creation of original music, a style is developed as well. As the subtle intricacies intended by the composer take form, the goal is reached. True appreciation for the master's who came before us, along with a complete dedication to the craft of inspired musical art has resulted in an inspiring collection of original jazz. MuzeJazz is pure music for the sake of the art and the enjoyment of the listener. "clear, accessible, smart, urban melodies", "careful of the placement of each note, giving it just the right attack, duration and dynamic", "His style is exploratory and driving, regardless of which instrument he's playing."
