

Mp3 Dr Mike - Mission

[DOWNLOAD HERE](#)

15 original songs written for children of all ages and their families about finding your mission in life, living for God's purpose, following God's word, living in our complicated world. Styles vary from rock to jazz to folk to island. 15 MP3 Songs in this album (52:30) ! Related styles: KIDS/FAMILY: Kid Friendly, SPIRITUAL: Contemporary Christian Details: I am a full time pediatrician, husband and father who has used music all along to communicate and connect with my children. I have written and recorded four albums of mostly original music as my family has grown and developed. This is my fifth project, this time involving their school, classmates and fellow parishioners. Mission is a collection of songs written over 8 years with and for the children of Saint Pauls Church in North Canton, OH. What started it all was a project with the fourth graders who were working on writing their own personal mission statements. They partnered with someone they identified as a mentor and then began the process of exploring the calling that God had for each of them. Each year a class would get together with me and we would discuss the ideas that were important to them: Service, Making a difference, Following Gods Word, etc.. Using musical styles that would best bring out the ideas and the unique personality of each group, I came up with a song that they could call their own. Over this time as well, I would be asked to write something for a particular Mass whos theme was this or that, or for a particular workshop that they were involved in. With the churchs youth group as well, I wrote songs about issues that were important to them. Now my mission is to spread this journey of faith and music with the world to hopefully inspire and continue the work God started in our parish. Peace.
