A listenable combination of Jazz, Pop, Rock Country. 14 MP3 Songs POP: with Electronic Production, JAZZ: Jazz Fusion Details: My musical life starts in the cradle when I was constantly surrounded by Jazz and Blues Records. At the age of nine years old I started playing drums and continued through college where Percussion was the emphasis on my degrees. I was in and out of many bands as a child up until college where Jazz Band and Marching Band was my primary focus. Since college I have been primarily a songwriter and learning more about and utilizing the latest in music technologies. My main songwriting attributes lie in Jazz, New Age, Classical and Rock although I have mildly partaken in Country as well.
