Elegant combination of blues, jazz, and a touch of rock presenting poetry as mythic story. 9 MP3 Songs  
SPOKEN WORD: With Music, SPOKEN WORD: Poetry Details: Glen River, composer, singer/songwriter and poet, has created his art since childhood. River continues to be profoundly interested in the primitive subconscious and stories about reunification with nature. Tremendously prolific, Rivers work decidedly tends to pursue a more independent path. Zen Process is his definition of the transcendent consciousness his art achieves. River explains it this way " It is like Zen Archery... art is the bow. The music and the poetry are the arrows. The eye, the mind, the heart and the bow they are all Zen Process."
